HS353 Digital Photo Engraver

Precise, Reliable and Fast
The Deepest Photographic Engraving Machine on the Market

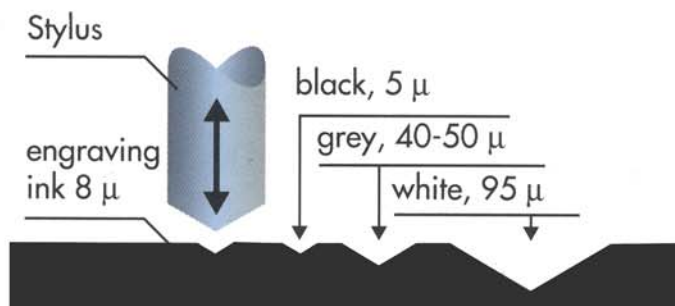

The HS353 Engraver is a precise, high speed mechanical engraver that is capable of engraving onto all precious metals.

Computer controlled, a steel or diamond stylus permanently engraves at high resolution, resulting in a photographic quality reproduction.

The HS353 engraves at 2.500-3.600 pixel per cm² and 256 grey levels guarantee optimum image and text results.

The finished reproduction produces a unique, highly detailed engraving which has a mystical holographic effect when viewing at certain angles.

Application Images

The HS353 produces a truly deep engraving which cannot be equalled in its optical quality or durability.

Application Specifications

| | |
|-----------------------|----------------------------------|
| Technical Data | |
| Engraving Time | |
| 1-5 Minutes per Piece | Depending on Size to be Engraved |
| Power Supply | |
| Voltage | 110/220 V (switchable) |
| Frequency | 50/60 Hz (switchable) |
| Power Requirement | approx. 400 VA |
| Dimensions | |
| Net L x W x H | 519 x 414 x 255 mm |
| Gross L x W x H | 780 x 520 x 670 mm |
| Weight | |
| Net | 27kg |
| Gross | 32kg |
